Dear Mr Rakesh Sehgal,

1. I would like to put on records my sincere thanks for the utmost cooperation extended by you and your entire team to ensure timely clearance of bills and ensuing efficient utilization of the funds allotted to our hospital in the FY 2017-18. This could have not been possible without your able perceptive and sanguine approach towards our patient care services. Consequentially a higher clientele satisfaction level has been achieved during this year.
2. I would also like to pass-along my deepest appreciations for sanguine advise given by you personally so that the processing of transactions were error & objection free. It is our endeavour to make the procurement system transparent and your help has gone a long way to accomplish that. Your staff members were always cheerfully ready to extend their support and services whenever needed.
3. I am looking forward for a great collaboration in future too.

with warm regards.
